

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service. It is imperative that you reject a flat fee UNFAIR TAX proposal.

My telephone is utilized for family connections and emergencies.

It is time you stand up for the little people of this country. The pattern has certainly started whereas the "big boys" get all the perks to enhance this administration and the average folks take it in the shorts.

Once again, it is unnecessary and invasive to continue to find "new" ways to tax Americans. Enough already!!!!!!

Sincerely,

SANDRA KENNEDY
